

Home Performance with ENERGY STAR® Rebate Application

Revised March 2025

The Home Performance with ENERGY STAR® Program provides Maryland residential customers of Potomac Edison with a rebate based on the predicted energy savings for selected energy efficiency home improvements (maximum of \$10,000* per home). A home performance audit must be performed by a participating contractor and work performed must meet all program requirements.

Please complete this application and mail it to the address provided below along with:

- 1) a sales receipt (must be dated from January 1, 2024, through December 31, 2026) from a participating contractor, and
- 2) a post-installation test-out form completed by a participating contractor.

Mail to: Potomac Edison Home Performance with ENERGY STAR® Rebates																		
Honeywell Smart Grid Solutions · 5100 Buckeystown Pike, Suite 250, Frederick, MD 21704																		
(Please do not send this form with your utility bill payment)

Home Performance with ENERGY STAR® Rebate Application

Potomac Edison Terms and Conditions

1. Products and services must be purchased from January 1, 2024, through December 31, 2026. Rebate application must be postmarked by January 8, 2027.
2. Please submit one rebate application form for the Home Performance with ENERGY STAR rebate application per completed improvement job.
3. Work must be completed by a participating contractor.
4. Applicant must be a Maryland residential customer of Potomac Edison.
5. It is the responsibility of the customer to assure that all requirements for the rebate are met. Failure to provide any of the required information will prevent processing of your application.
6. Rebate payments are based on the installation date. Customers must abide by the rules and rebate levels in effect on the date of installation.
7. Homes must have an electric heating system as a primary heat source or a central air conditioning system or documented use of multiple room AC units to qualify for this rebate.
8. Potomac Edison and/or its designees including program administrators and evaluation contractors reserve the right to review installations to verify completion and measure energy savings to ensure compliance with all program requirements. Such reviews will be made at a time convenient to the applicant. Misrepresentation of installation location or measure eligibility may result in forfeiture of the rebate.
9. Program procedures, requirements and rebate levels are subject to change or cancellation without notice and are subject to available program funds.
10. Payment will be issued to the account holder and mailing address on record with the utility.
11. Please allow up to 90 days from the date all required information is received to process your rebate(s).
12. Installations must be completed in accordance with all laws, codes and other requirements applicable under federal, state and local authority.
13. You are urged to seek appropriate consultation concerning any tax liabilities that could be associated with the receipt of the rebate.
14. Potomac Edison, its parents, subsidiaries, employees, affiliates and agents assume no responsibility for the performance of the product or product warranty, the quality of the work, labor and/or materials supplied, and/or the acts or omissions of the participating contractor.
15. The customer hereby agrees to indemnify, defend and hold harmless Potomac Edison, its parents, subsidiaries, employees, affiliates and agents from any and all liability associated with this project.
16. I understand that I may be contacted by Potomac Edison via survey or questionnaire to provide feedback on my satisfaction with the program.
17. By participating in these energy efficiency and peak demand reduction programs, customers agree to allow their utility to retain ownership of all Capacity Rights which refers to the demand reduction associated with any energy efficiency and peak demand reduction measure for which incentives were provided by the Company. Your utility will aggregate these energy efficiency demand reduction attributes into the PJM capacity market with proceeds being used to offset the program costs.
18. If application includes a high efficiency central air conditioner or heat pump, equipment may be installed by a participating HVAC contractor prior to obtaining a comprehensive audit, but customer must schedule a comprehensive Home Performance audit within 30 days of HVAC installation using a participating Home Performance Contractor, and air sealing and insulation improvements must be purchased and installed prior to applying for the Home Performance Rebate. If no Audit or Home Performance Improvements are done, customer must apply to the standard HVAC rebate program.
19. A customer may apply for a rebate for HVAC equipment replacement in either the Home Performance with ENERGY STAR program, or the HVAC rebate program, but will not be eligible for both.
